Vertice™

\*ByType, we mean type of licence : user = by user/workstation, GPU = by GPU on the server, Project = by development project with the SDK.

\*\*By « Subscription », we mean the upgrades of the product license as well as 3 tokens of personalized support during the year of the subscription. The subscription starts at the purchase date of the license and must be renewed before the end of the previous subscription end date.

\*\*\*By « Floating License », we mean a license that can be shared between users but not simultaneously. Vertice manages the licenses on a server.

\*\*\*\*By competitive upgrade license, we mean an upgrade to Nova Studio Ultimate from a competitive professional license. Please contact us to know the conditions and the eligible products.
